

# Literacy is MORE than just Reading!

## Unique Advantages offered by Pure Complete Phonics:

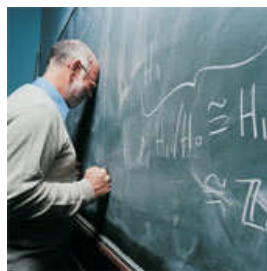

- ♦ **Only** phonics program using ALL 100 sounds in the American English Language (DOUBLE what other programs use).
- ♦ The cost is far less being produced by educators not publishers (\$199).
- ♦ Principles are the same and effective regardless of age.
- ♦ No tricky words or rules to memorize like typical whole language curriculum (ex. “I” before “E” except after “C”).
- ♦ Consistent formats ensure efficient instruction, so parents are certain they’re teaching effectively.
- ♦ Provides for greater retention rates through the use of multiple senses simultaneously.
- ♦ Promotes strategies that create Independent Learners. Improvements continue via a readily available tool, the dictionary.
- ♦ Proven successful for any user even those with significant learning deficiencies (such as Dyslexia)
- ♦ Allows benchmark learners to excel beyond expectations of physical, emotional and cognitive development levels typical for each age.
